

## **DIVISION 1 - GENERAL REQUIREMENTS**

### **SECTION 01555 - RESTORATION OF SITE/BUILDING**

#### **PART 1 - GENERAL**

##### **1.01 - GENERAL**

- A. This Section includes requirements for restoration of site to pre-existing conditions.
- B. Prior to completion of the Project, Contractor shall restore the site surface to the condition which existed prior to the start of work. Only those new improvements indicated in the Contract Documents will be permitted to alter the appearance of the site surface after completion of work.
- C. Contractor shall be responsible for restoration of surface conditions.
- D. All existing surface improvements if removed, destroyed or damaged during the course of work shall be replaced. Access roadways if damaged shall be repaired and resurfaced. The extent of this work will be dependent on the Contractor's means and methods used during the course of construction and the care exercised by the Contractor in protecting surface features.

##### **1.02 - CONTROL**

- A. Because extent of surface conditions which must be restored is dependent on the Contractor, extent of this work is not itemized in the Contract Documents. Contract Documents do, however, define typical items of work which shall be used in the replacement of those surface conditions which the Engineer anticipates will require replacement. If Contractor removes, destroys or damages an existing surface feature not anticipated to require replacement and the replacement work is not defined in the Contract Documents, Contractor shall inform the Architect. The Architect will develop and issue documents defining work to be performed in the replacement of said feature. Contractor shall perform this replacement work and all other replacement work at no additional cost to the EPA.

### **1.03 - SPECIFICATION**

A. All restoration of surface conditions shall conform to the following codes and standards as if reproduced herein:

1. Grosse Ile, Department of Public Works, Division of Highway Maintenance, Inspection Section, Rules and Regulations Governing the Making Openings in Streets, Alleys, Sidewalks and Public Ways and the manner in which the paving is to be restored.
2. State of Michigan Department of Transportation Standard Construction Drawings.

**PART 2 - PRODUCTS - NOT APPLICABLE**

**PART 3 - EXECUTION - NOT APPLICABLE**
